

AppConfig Community

Antitrust Policy

Members of the AppConfig Community are committed to fostering competition among independent software vendors, mobile application development platform vendors, enterprise mobility management platform vendors and service providers and an improved customer experience based on the activities undertaken in connection with the AppConfig Community. Members understand that in certain lines of business members and promoters are or may be direct competitors and that it is imperative that they and their representatives act in a manner that does not violate any applicable antitrust law or regulation. Without limiting the foregoing, members acknowledge that as part of its activities in connection with the AppConfig Community, members will not undertake communications regarding costs, prices, quantity or quality of production levels, methods or channels of distribution, markets, customers, exclusion of competitors or any other topic that would be a violation of the applicable antitrust laws and regulations. Accordingly, each member is responsible for counseling its representatives who participate in any activities in connection with the AppConfig Community on the importance of limiting the scope of their communications to the topics that relate to the legal purposes of the AppConfig Community, whether or not such communications take place during formal meetings, informal gatherings, or otherwise.
